ANWAR ALAM

FULL-STACK WEB DEVELOPER | E-COMMERCE & SEO

Dubai, UAE | +971 58 661 9341 | iamanwaralam48@gmail.com

LinkedIn | Portfolio | GitHub

PROFESSIONAL SUMMARY

Web developer with over 8 years of experience building websites, online stores and mobile apps, including 4 years working with businesses in Dubai. I build fast, reliable websites that help companies sell more and get found on Google. My work covers SEO, speeding up slow pages, building and managing Shopify stores, and tracking website traffic to see what's working. I also handle the behind-the-scenes setup, such as hosting, domains and business email, so websites stay secure and running smoothly.

CORE SKILLS

Web Development: Next.js, React, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3
E-commerce & CMS: Shopify, Liquid, WordPress, WooCommerce, headless commerce
SEO & Analytics: Technical & on-page SEO, page speed optimization, Core Web Vitals, GA4, Search Console, Tag Manager
Hosting & Infrastructure: Web hosting, DNS, cPanel, SSL, Microsoft 365, Google Workspace, backups
Mobile: Flutter, Dart, Android (Java), Firebase (Realtime Database, Authentication, Analytics)
Tools: Git, GitHub, CI/CD, Gradle, Figma, Claude Code, MCP

PROFESSIONAL EXPERIENCE

AK International LLC (AKI) | Dubai, UAE — 2022 - Present

Web Developer & SEO Specialist

- Rebuilt akiuae.com as a Next.js 14 application with 32 statically generated pages, improving Core Web Vitals by 35% for a noticeably faster site.
- Led a zero-downtime DNS and hosting migration from GoDaddy to a cloud hosting platform, keeping Microsoft 365 business email running without interruption.
- Build and maintain corporate websites, product pages and web applications using Next.js, React and WordPress.
- Built and manage Esthica, AKI's Shopify store, from scratch, including a custom theme, full product catalog, payment-gateway setup and ongoing updates.
- Built a fast Next.js headless storefront for Beatryx, with checkout connected to the Esthica Shopify backend.
- Own technical, on-page and off-page SEO, track performance through GA4 and Google Search Console, and set up the company's Google Business Profile.
- Administer Microsoft 365, Google Workspace, cPanel, domains, DNS, SSL, hosting, backups, security and disaster-recovery readiness.

Independent E-commerce & Web Projects | Dubai, UAE — 2023 - Present

Freelance Full-Stack & E-commerce Developer (Part-time)

- Built and run techsavvyhelp.com, a WordPress site publishing Windows troubleshooting guides; handle development, content, keyword research and SEO end to end.
- Developed a fast, SEO-friendly Next.js content platform for Flavor & Figures, a Dubai food media channel.
- Connected GitHub, Figma and deployment tools into an AI-assisted development workflow to ship projects faster.

ArhamTechMind | Remote / India — 2020 - 2022

Android & Flutter Developer

- Developed and published Android and Flutter apps on Google Play, including Islamic utility apps used by international audiences.
- Migrated legacy Java apps to Flutter using Firebase Realtime Database, Authentication and Analytics.
- Led testing and debugging cycles to improve app stability and responsiveness.

csdevbin | Hyderabad, India — 2017 - 2019

Android Developer

- Built and maintained native Android apps in Java within an agile team, shipping production modules on schedule.
